

Visual Basic

My Project in Semester 3, My VB project basically about Online ticketing System from Kuala Lumpur to Johor, Pahang, Kelantan and Terengganu .User can choose their own destination and discount .Besides user also can choose to add-ons meal or neck pillow.

The screenshot shows a Visual Basic application window titled "Form1" with a teal background. The form is divided into several sections:

- Information:** Contains text boxes for Name (izyan), I/C Number (970819-13-5462), Phone Number (017-4959027), and Ticket Date (12/04/2017).
- Discount:** Contains radio buttons for "Student" (selected) and "OKU (Disabled)". Next to each is a text box showing the discount percentage: 10% for Student and 15% for OKU (Disabled).
- Add-ons:** Contains checkboxes for "Meal" (checked) and "Neck pillow" (checked). Next to each is a text box showing the price: RM 5 for Meal and RM 15 for Neck pillow.
- Destination:** Contains radio buttons for four destinations: Kuala Lumpur - Johor, Kuala Lumpur - Kelantan, Kuala Lumpur - Pahang (selected), and Kuala Lumpur - Terengganu. Next to each is a text box showing the price: RM 35, RM 45, RM 25, and RM 40 respectively.
- Summary:** A text box displaying the user's details: Name : izyan, IC NUMBER : 970819-13-5462, Phone Number : 017-4959027, Ticket Date : 12/04/2017. Below this, it says "Dear : izyan" and "Total Price is: RM42.5".

Buttons on the right side of the form include "Calculate", "Reset", "OK" (with a red "Click OK to proceed" message below it), and "Exit".
